

# Regulatory frame of Household Products in Chile

Comité Productos de Limpieza, Aseo y relacionados  
Sociedad de Fomento Fabril (SOFOFA)  
27th June 2017

# Agenda:

- Regulatory overview:
  - Classification
  - Regulatory requirements
- Key Challenges & Opportunities

# Regulatory classifications

- **General Household Products ->**
  - No specific regulatory frame
  - Evaluation's risk is responsibility of the importer/distributor of products
- **Domestic & Sanitary Use Disinfectant Products->**
  - Specific regulatory frame (Supreme Decree N° 157: Household Pesticides)
  - Chilean's Definition: Fight sanitary vectors and infestation in the household environment; Repellents or attractants not applied directly over the human or animal skin

# Regulatory Context

Mandatory requirement	General Household Products	Domestic and Sanitary Use Disinfectant Products
Regulatory Frame	Not specific regulation	<ul style="list-style-type: none"><li>- Regulation of Pesticide of sanitary and domestic use (Supreme Decree N° 157).</li><li>- Draft Antimicrobial legislation (on going)</li></ul>
Registration	No	Yes and is complex.

# Regulatory Context

<b>Mandatory requirement</b>	<b>General Household Products</b>	<b>Domestic and Sanitary Use Disinfectant Products</b>
Labelling	No	Yes warning messages are not convergent with Latam countries
Time of registration (new register or modification)	N/A	6 month to 12 month

# Key Challenges & Opportunities

- **Lead Time reduction on disinfectant registration process (From 6 to 12 months):**

- ✓ Support deployment of market surveillance systems based on risk maps and the manufacturer/importer/distributor's responsibility
- ✓ if previous notification to the Health's Authority is necessary , then simplify the level of information in the pre-market submission moving forward to non pre-market approval

# Key Challenges & Opportunities

- **Warning messages on pack:**
  - ✓ Promote the convergence of labeling requirements based on risks
  - ✓ Friendly to consumers understanding

- **Disinfectant regulation: Unique & convergence**
  - ✓ Removal of any kind of registration/notification numbers on pack
  - ✓ Simplify requirements of Dossiers
  - ✓ Hazard classification of Disinfectant products based on valid International standards
